Deputy Manager – Quality Assurance | Capital Markets & BFSI Fintech | 8+ Years

PROFESSIONAL SUMMARY

8+ years of QA expertise in BFSI and capital markets fintech, delivering zero-defect production releases across trading and non-trading platforms (Mobile, Web, EXE). Deep domain Knowledge in Equity, F&O, Currency, and Commodities — including OMS, RMS, BOD Files and multi-exchange risk system validation. Proven record leading QA with ownership of 880+ test cases and 500+ regression workflows. ISTQB CTFL v4.0 certified. Creator of QA Forge — a proprietary AI-powered test management tool that cut test authoring time by 40%.

KEY SKILLS & COMPETENCIES

Domain	Equity · F&O · Currency · Commodities · OMS · RMS · SEBI-Regulated Platforms · Capital Markets
Testing Types	Functional · Regression · System · Sanity · Smoke · API (REST) · DB Validation · Performance/Load · UAT · Production Sign-off
Tools	JIRA · Postman · Apache JMeter · LambdaTest · Jenkins · Claude AI (Anthropic) · QA Forge
Platforms	Android · iOS · Web · EXE · TWA (Trusted Web Activity) · Admin-NEST
Database	MS SQL Server
Methodology	Agile/Scrum · Sprint QA · Defect Life Cycle · BOD File Validation · Test Strategy & Planning

PROFESSIONAL EXPERIENCE

Deputy Manager – Quality Assurance

Feb 2025 – Present

JM Financial Services Limited · Andheri, Mumbai

- Defined QA strategy, test plan, and sign-off criteria for each release cycle — owned end-to-end quality delivery for JM Pro Trading Platform across Mobile (Android/iOS), Web, and Blink Trade EXE covering Equity, F&O, Currency, and Commodities; delivered 25+ production releases with zero critical post-release defects.
- Authored 880+ structured test cases covering full order lifecycle matrices, Default Order Settings (MTF/NRML/CNC/MIS), IPO, Stock Pledge, MTF Pledge, Day P&L logic, WebSocket broadcast connectivity, and BOD sanity checklists.
- Led RISK–BULLET backend validation: verified BOD file generation across 5 trading platforms (Omnesys, DBG, GREEK, ODIN, Symphony) — Holdings, Positions, Ledger, Client Blocking; validated scheduler jobs, data accuracy, and UAT-to-Production uploads.
- Owned QA for Account Opening – DIY (Web & Mobile) and Insta RM journeys including DDPI, Refer & Earn, and Empowerment Nominee; contributed to QA sign-off that secured exchange approval for Blink Trade EXE across all segments.
- Executed API testing (Postman), database validation (MS SQL), and performance/load testing (JMeter); integrated test execution reporting into Jenkins CI/CD pipeline; managed all defects in JIRA.
- Actively involved in requirement analysis, test planning, defect management, release sign-off and collaborating with Product, Business, Developers & Support teams to ensure successful, high quality product deliveries.

Quality Engineer II

Mar 2021 – Jan 2025 · 3 yrs 11 mo

Angel One Limited · Andheri, Mumbai

- Owned QA strategy and delivery for Spark Trading Platform (Mobile & Web) — one of India's largest retail broking platforms — covering full OMS workflows for Equity and Derivatives across Android, iOS, and Web with bi-weekly release cycles.
- Designed and maintained regression suites of 500+ critical trading workflows; ensured platform stability during high-volume sessions with zero P1 production incidents attributable to QA gaps.
- Led QA for TWA (Trusted Web Activity) applications on Android and iOS; executed functional, sanity, API, DB, and performance testing with structured QA sign-off documentation.
- Consistently identified 15–20 critical defects per release cycle; awarded QA of the Month (Jul 2024), League of Extraordinary Angelites (Jun 2023), and Outstanding Employee of the Month (Aug & Sep 2021).

Quality Analyst

Jul 2018 – Mar 2021 · 2 yrs 9 mo

Rupeeseed Technologies Ventures Limited · Borivali, Mumbai

- Verified OMS, RMS, and Admin Terminal functionalities across Web, Mobile (Android/iOS), and EXE platforms for multiple brokers; validated risk rules, order blocking logic, fund release mechanisms, and Client and Dealer Terminal workflows.
- Prepared and executed test scenarios and test cases based on BRDs for trading modules; validated Admin Terminal functionalities including User Management, Market Status, Transaction Monitoring, Market Surveillance, Risk Management, and Performance Analytics.
- Verified RMS calculations for Equity, Futures & Options based on VAR, ELM, SPAN, and Exposure Margin during order placement, modification, and cancellation; collaborated with developers, business analysts, and broker teams to report defects, validate fixes, and support production deployments.

KEY PROJECTS & ACHIEVEMENTS

QA Forge — AI-Powered Test Case Management Platform (qaforge.netlify.app)

Designed and deployed a proprietary QA productivity tool integrating Anthropic Claude API via Cloudflare Worker proxy (CORS-safe), with Sprint Board, AI-generated Test Library, and Share & Sign-off module. Cuts test case authoring effort by ~40%.

RISK-BULLET — Multi-Exchange Risk Management Validation

Led backend QA for BULLET risk management system — validated BOD file generation across 5 platforms (Omnesys, DBG, GREEK, ODIN, Symphony), scheduler job monitoring, data integrity checks, and UAT-to-Production deployment validation.

Blink Trade EXE — Exchange Approval QA

Contributed to QA validation that secured full exchange approval for Blink Trade EXE across all segments — order flow, risk controls, compliance requirements, and performance benchmarks.

CERTIFICATIONS

ISTQB Certified Tester Foundation Level (CTFL) v4.0 — ISTQB	Oct 2024
ISTQB CT-AI: Certified Tester – AI Testing (Testing with Generative AI) (In Progress)	Expected Aug 2026
Generative AI Tools — Skill Nation	Jun 2026
AI Tools Workshop — Be10x	Mar 2026
